### 1.5. XMLBeans 1.0.3 Released (28 June 2004)

[Apache XMLBeans Team](#) has released XMLBeans Version 1.0.3. Download version 1.0.3 from the [Source and Binaries section](#).

Version 1.0.3 is [Apache XMLBeans](#) first release after becoming a Top Level Project in the [Apache Software Foundation](#).

## **1.6. XMLBeans becomes a Top Level Apache project (25 June 2004)**

Apache XMLBeans Project has graduated out the [Apache Incubator Project](#) to become Top Level Project in the [Apache Software Foundation](#). Apache XMLBeans provides a simplified model for interacting with XML documents. The project originated with a contribution from [BEA Inc.](#), however, after its time within the Apache Incubator, it is now a full-fledged Apache community and codebase under Apache License 2.0. Cliff Schmidt is the Chair of the new Apache XMLBeans PMC (Project Management Committee).

## **1.7. XMLBeans (incubated) 1.0.2 Released (23 April 2004)**

[Apache XMLBeans Team](#) has released XMLBeans Version 1.0.2. Download version 1.0.2 from the [Source and Binaries section](#).

[Apache XMLBeans](#) is an effort undergoing [incubation](#) at the [Apache Software Foundation \(ASF\)](#), sponsored by the [XML project](#).

Incubation is required of all newly accepted projects until a further review indicates that the infrastructure, communications, and decision making process have stabilized in a manner consistent with other successful ASF projects. While incubation status is not necessarily a reflection of the completeness or stability of the code, it does indicate that the project has yet to be fully endorsed by [the ASF](#).
